Hey everybody,

For the past few weeks, we've been talking about how America was founded. From the pilgrims, to Lewis and Clark, to the Constitution, it's been pretty amazing to see how America came to be. It also made me realize that we are a part of America's future history. One of us could be the next President of the United States or a scientist who makes a discovery that could change the world, which is why right now we need to keep working hard in school so we can strive to be as great as those that came before us!
