

COLOR ME ORGANWISE

Well hello there,

One of my favorite activities on winter break is wrapping presents! I help my parents wrap presents for my grandparents, cousins, family friends, as well as small gifts we get for our postman, sanitation workers, and others who help us out all year. I love choosing the paper, cutting it the correct size for the package, and choosing a bow for the big ones. I know it seems silly, but it's a small thing that I like to do and helps my parents during this busy season. You too should find a small way to help your parents as it can often be their busiest time of the year!

Talk to you soon,
Peri
